AB Adhesives contg. atactic polypropylene (I) have improved tensile strength and adherence. Thus, an adhesive compn. was prepd. from I 90, a petroleum diene resin (II) 90, mineral oil 51.5, olein 11.8, PhMe or naphtha 80, Na3PO4-casein 34.5, Na3PO4-NH4OH 50, tripolyphosphate 50, and latex 40 parts. The latex may be natural or synthetic rubber, vinyl and (or) acrylic copolymers. A coumarone-indene resin may be used instead of II. The adhesive compns. are useful for prepg. varnishes, paints, and other coating compns.

IT Coumarone-indene resins

RL: USES (Uses)

(adhesives from propene polymers and)

IT Hydrocarbon oils, uses and miscellaneous

RL: USES (Uses)

(adhesives from propene polymers contg. olein and)

IT Adhesives, preparation

(propene polymers contg. petroleum resins)

IT Petroleum

RL: USES (Uses)

(resins, adhesives from propene polymers contg. hydrocarbon oils and)

IT Olein

RL: USES (Uses)

(adhesives from propene polymers contg. petroleum resins and)

IT 9003-07-0, uses and miscellaneous

RL: USES (Uses)

(adhesives from petroleum resins contg. olein and)

IT 7601-54-9

RL: USES (Uses)

(adhesives from propene polymers contg. hydrocarbon oils and)
